Hello there,

I am a Software Career Accelerator Graduate of 2018, studied Java and Javascript. Currently, I do frontend with typescript for open-source codelab.fun

I have good Math and Algorithm skills, you may check out the video of me conducting the binary tree workshop in April: https://www.youtube.com/watch?v=9G44nPj-iho&t=3148s

My previous background is in Education, I used to teach Computer Science and Robotics at high school and had an opportunity to familiarize me with a bunch of different programming languages and technologies.

Looking forward to hearing back from you,
Cheers,
Anna
